LOCATION

Welcome to a land of unspoiled beauty with rainforested lands covered in luscious vegetation and washed by waterfalls. South on the Caribbean Sea lays a privileged island, surrounded by pristine white and black sand beaches, turquoise crystal clear waters and a great abundance of sunshine.

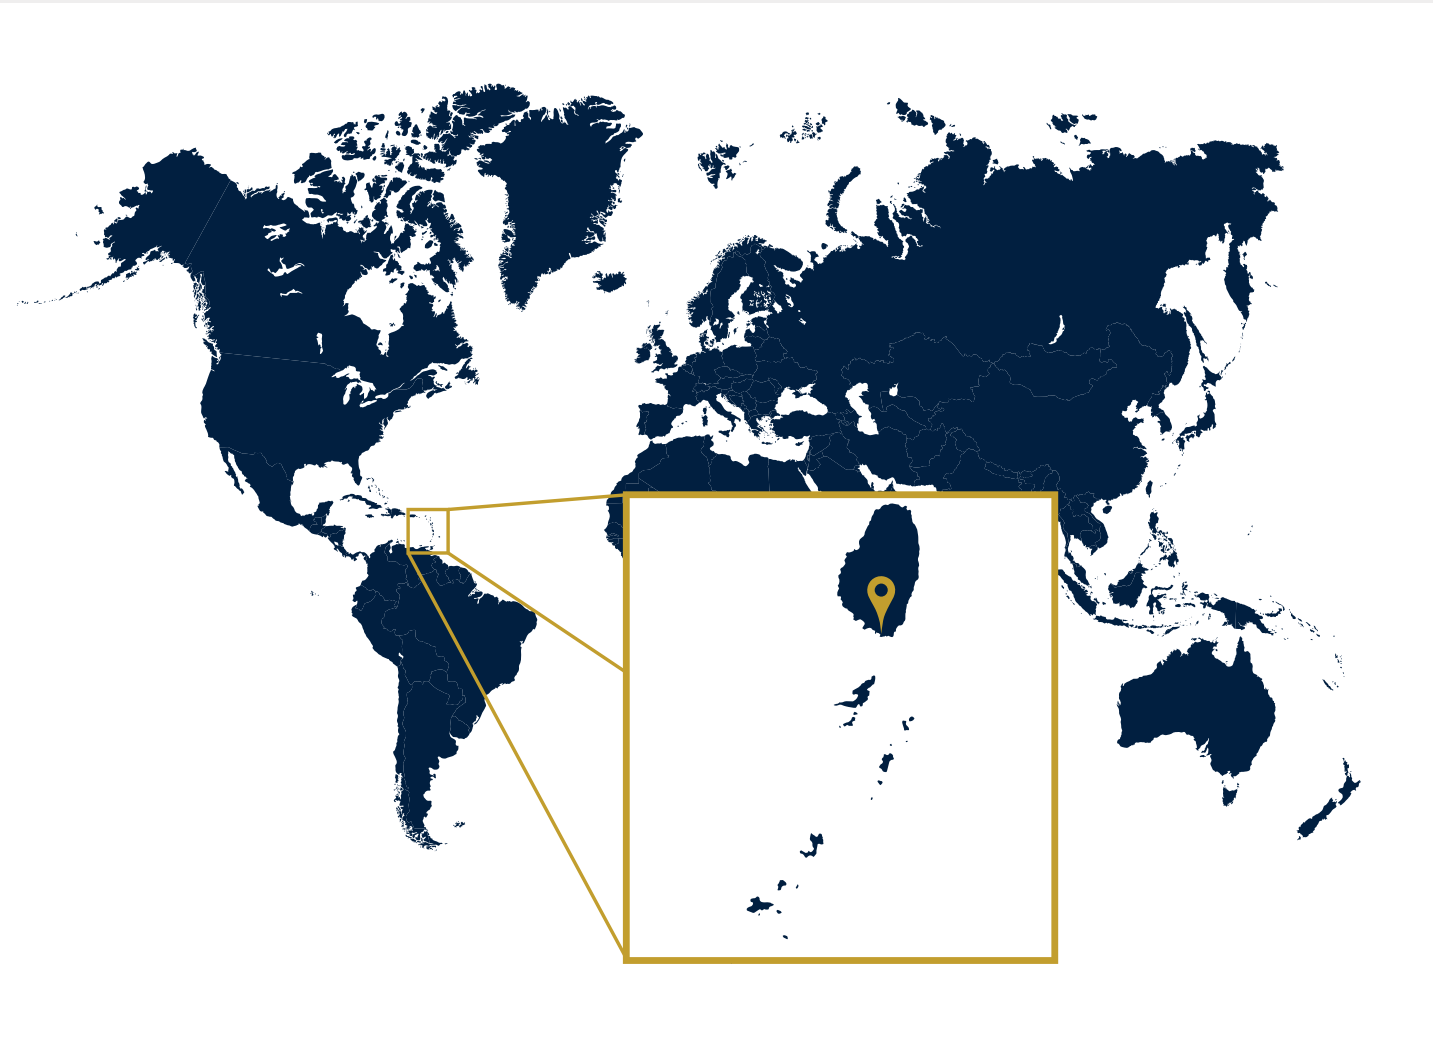

This Anglo-Caribbean country is comprised by the main island of Saint Vincent and the northern two-thirds of the Grenadines, which are a chain of 32 smaller islands including Saint Vincent. On the southern tip of the main island of St. Vincent lays Ratho Mill, an elevated beachfront paradise with crystalline sea water shores, offering stunning views of the northern Grenadines, islands of Bequia and Mustique. This area housed a local sugar mill with a lot of significance for the island, and today Ratho Mill has been selected as the perfect site for the development of our project, masterfully framing the natural beauty of the island and blending into the horizon.

St. Vincent and the Grenadines is a Caribbean gem waiting to be discovered, and Royal Mill gives you a unique opportunity to tap into endless possibilities to enjoy the splendor of a secluded paradise.
